

STONY PLAIN SUN.

VOLUME NINE.

STONY PLAIN.

ALBERTA THURSDAY, JULY 18 1929.

Whole Number 467

All highway crossings are by law protected by signs, and they are only dangerous when the driver of the automobile makes them so. They are not dangerous if motorists will take a small part of the care they exercise in turning on a city street. It is the motorist's carelessness that makes them dangerous. The train has right of way. Everyone knows what may happen if the plainly seen warnings are disregarded at a point where the motor car can stop while the train cannot.

The surprising part of it also is that safeguards and precautions erected by the railroads are so often entirely ignored. Time after time newspaper reports show that crossing alarm bells, barrier gates and even watchmen waving "stop" signals mean nothing to the man in the

motor car who is determined to beat the train to it.

Coroners' juries are usually more discriminating and put the blame where it belongs, but the general public, seeing the usual newspaper heading, "Train Crashes into Motor Car," starts out with the impression that the train must necessarily be to blame, when, as a matter of fact, a fairer statement of the case would be "Another Auto Gets in Path of Fast Train." Quite as often, too, the heading should read, "Flying Auto Dashes into Moving Train." Frequently the auto strikes the train well behind the engine, a convincing indication that the motorist too frequently treats the railroad crossing with the same casual notice that he gives the intersection of a quiet country road.

Smoking forests or smoking chimneys—WHICH?

WE CAN'T HAVE BOTH

Over one-half of all Canada's industries depend on wood as a raw material. When the forests are destroyed mills must close down, railway earnings must suffer, trade must stagnate and prosperity must vanish.

Issued by authority of
Honorable Charles Stewart,
Minister of the Interior.

ELEVATORS TO CLOSE.

All the Elevators in Stony Plain and Spruce Grove will Close at 12 o'clock Noon on Saturdays, from May First to September First.

LOCAL NEWS.

Word received from Edmonton hospital says Mr L. Wight is making good recovery, following a recent operation.

Phil Fuhr's motor party, with Miss Dweek and Miss E Wolfe, arrived home on Sunday, from a trip to Portland and other Coast cities. Mr Herb Wolfe left the party at Granum, where he is employed in the Bank of Commerce branch.

Councillor Zuehl is leaving next week on a motor trip to Wembley.

Mr Zerber spent the week-end in Stony, with his family. Mrs Donaldson and Manly have returned to Stony for the summer.

Mr and Mrs Jac K Meyer and Mrs K Baron, Blueberry, and the latter's sons Henry and John, are at present on a motor trip to Lethbridge. From there the party will go to Banff.

Mrs Henry Sinner and family are spending a vacation with friends at Pidgeon Lake.

The Misses E Peters, E Danhauser and Anna Moyer have returned to their homes after a week-end spent at Edmonton, Beach.

Mr Wm Stafford is moving his family from the City to Stony Plain, this week.

The local High school trustees are advertising for a principal for the school, in succession to Mr Harrison, who has accepted a position with the Camrose board of education.

Edmonton Exhibition.

This district has kept up, this week, its reputation of sending a large quota of visitors to Edmonton's annual exhibition, with a record crowd in attendance Tuesday, Farmers' Day. The agricultural exhibits were given the once-over by those interested.

The attractions this year are receiving very favorable comment from those who have so far attended the Ex. The big features on Monday were the mammoth street parade, followed by the opening by Hon. Frank Oliver.

The evening pageant, Arabian Nights, is the best attraction yet shown at the Fair. Monday's amateur band contest proved of great interest to members of our local band who were in attendance.

Today, Thursday, is livestock day, and no doubt keen interest will be taken in the judging of the animals.

Tomorrow, Friday, is Sports Day, and Saturday is Carnival Day.

Church Services

A Lutheran service in English will be held in Stony Plain next Sunday at 7.30 p.m., by Rev. Osterman.

Service at United church Sunday evening at 7.30; Rev G A Sander.

Hike For Health!

Automobile laziness is stated to be the cause of one hundred times as many deaths annually as are caused by automobile accidents. The automobile has made it possible for us to get through life with hardly any exercise unless we are fortunate enough to be employed in some variety of manual labour. This has completely changed our mode of living but not our diet; we still eat the same quantities of rich heavy food customary many years ago.

Easy and quick transportation at any time by automobile should be one of our chief blessings; to many it appears to be far from that. The medical profession has been aware for some time of the great increase of disease among the well-to-do. The situation has become so marked that our great insurance companies are becoming seriously alarmed. Investigation has shown that fully 90 per cent. of the well-to-do members of our population have either undergone an operation or are suffering from some kind of disease, and the number of sudden deaths of apparently healthy people is increasing alarmingly.

The blame for this is placed unhesitatingly upon the thoughtless use of the automobile. To preserve his health man must exercise. The languid gaze of golf after sitting all day either in his office or automobile has proved but a poor substitute. Even less effective is the modern method of enjoying our sports by sitting on a grand stand and watching others play baseball, football, or horses run a race. Many try to replace exercise by food and patent medicines, and thereby enrich many charlatans but benefit themselves very little. We are clamouring for larger hospitals and more operating rooms; we would be wiser to clamour for more parks and recreational areas where we may pleasantly indulge in natural exercise.

It has become the fashion among the motoring public to drive through our parks and along our highways as fast as the law allows, and to agitate for extended roads hither and yon, so that they may drive further from the beaten path. The motoring public of tomorrow will undoubtedly have different ideals; they will appreciate motor roads located through attractive districts with numerous parking places from which they may explore on foot the beauties not to be seen from the road. They will be anxious to learn what is behind the hill, the average motorist has but little to tell of his trip except his daily mileage record; then, the subject of his motor trips will be treated by his friends with the discretion now used towards a postage stamp collector. When once started on a description of the trip, photos, mineral specimens, and curios of many kinds will be produced, and the story of the trip will be a long one full of plans for the exploration of other districts in the future.

There is no more delightful nor healthful way to spend a week-end than on a "new" trail. Popular books, plays, and amusements are usually "different." National parks provide something different every few minutes; the scenery, both in relation to light and shade and relative position, is always changing; there is always the lure of the unexpected just around the corner. Many and varied are the objects to interest the observant which will never be noticed by the long-distance hiker who, like the present day motorist, takes his pleasure from his mileage records. Some of the world's richest mines have been passed unnoticed by hundreds before the man with the seeing eye came along to see, investigate, and become the envy of his less observant fellows.

An elderly clergyman was found wandering alone in the mountains. He said that during a serious illness he realized that in his lifelong study of the word to come he had seen very little of the world in which he lived. His enjoyment of his surroundings was almost pathetic; he realized too late how much of the beautiful in life he had missed.

Various foreign governments carefully foster physical culture either in the form of citizens' military training camps, great athletic meets, or Olympic games, in which thousands of athletes annually take part.

Walking has become very popular in many European countries. In Germany they were quick to grasp the significance of this, and shelters have been established at suitable points of interest throughout that country which were patronised by over twenty million hikers last year. Not only university students to whom a hike was a college week work weeks of college, but hosts of wage earners from the large cities made up their own parties of from half a dozen to a hundred or more, and had a most enjoyable holiday at slight expense.

Obviously the scheme is of national benefit; National health is improved and patriotism fostered by broadening the vision and familiarising the people with their own country.

The most robust employes usually commands the best wages, but during slack times the weak ones are often discharged, to possibly become a charge on the community. National prosperity is based on national health. Strong robust manhood and womanhood is the foundation on which a strong nation must rest. Canada has much beautiful scenery, and it is not restricted to any one section of the Dominion. Why not familiarise ourselves with our own country by walking through it? Why not set aside, each year, a hiking week, preferably in the late summer or early fall months, and go on a hike of thanksgiving for our present health and gather a harvest of health for the future?

Tribute To General Booth

Aged Commander Died Peniless Although He Controlled Millions

Appreciation of General Bramwell Booth was high during his lifetime; he was the main bulwark of a world-wide organization dedicated to the service of humanity; it was perhaps even higher at his death, when came opportunity to review his works; it will be higher than ever as the results of an examination of his "estate."

The fact of the matter is there is no estate. It is revealed that the aged General died absolutely penniless. He owned not one cent, and he left no property other than his uniform and a few books. He controlled millions in money and property but never drew a cent from the Army. He subsisted on a trust fund of \$2,500 a year; did not own the house in which he lived, and looked to relatives to pay his children's fees at educational institutions.

There are various elements which enter into true greatness. One is capacity; others are service to one's fellows, unselfishness, sacrifice. General Booth had all these. To die penniless is sometimes accounted an object for pity or scorn. In the case of Bramwell Booth it is yet another tribute to the man and his works.—Regina Daily Post.

WEAK, WATERY BLOOD

Is the Cause Of Much Distress and General Weakness

Anemia—which really means weak, watery blood—is responsible for the pale faces, thin cheeks, dull eyes and drooping figures one sees so frequently. It is the chief cause of headaches, weak backs, aching limbs and uncertain health. Every weak, anemic person should win the right to be well by refreshing thin, weary bodies with the new, rich, red blood so promptly supplied by the use of Dr. Williams' Pink Pills. This new blood reaches every organ and nerve in the body and quickly banishes all those troubles that have their origin in watery blood. Among those who have found new health and strength through the use of Dr. Williams' Pink Pills is Mrs. Elizabeth Evans, Amherst, N.S., who says: "When I began taking Dr. Williams' Pink Pills I was so weak and run-down that I could scarcely go about the house, and found housework almost impossible. I was taking doctor's medicine, but with no apparent benefit. I had often read about Dr. Williams' Pink Pills and decided to try them. Soon I found they were helping me, and under their continued use regained my health. The pills also completely relieved my son of St. Vitus dance, so that I have every reason to be proud of them. You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

Expensive Airplane

Probably the most expensive airplane ever constructed, was recently built in England. It has a ceiling hand decorated, that cost \$5,000. Accommodations are for eight passengers and include a lounge and bridge tables, electric kitchen and electric refrigerator. The total cost of the plane was \$150,000.

LAXATIVE FOR BABY THAT "STAYS DOWN"

Baby's tiny system rebels against castor oil and strong purgatives; but here's a medicine that just suits him. And it does the work quickly and so gently that Baby doesn't feel it. Fletcher's Castoria is a soothing cream, fretful babies and children to sleep and making the feverish, constipated, upset ones well and happy in millions of homes today. Castoria is pure vegetable, harmless and endorsed by the medical profession. Avoid imitations. The Chas. H. Fletcher signature marks genuine Castoria.

Willing To Oblige

The "Corriere D'America," Italian tabloid newspaper, has increased its size. An editorial explained the change was made because an Italian reader in Trenton, N.J., complained in a letter that the paper was too small to wrap his lunch in.

Made Fortune By Accident

Proprietor Of Roundabout Had Un-usual Luck In Australia

Fortunes are not always the result of hard work and good judgment, but are sometimes made by accident, says Jack McLaren in writing upon the subject in the London Daily Chronicle. One such case occurred when a roundabout was landed at Thursday Island—a cosmopolitan pearling centre off the north coast of Australia—for transshipment to Japan. Finding there were a few days to wait, the proprietor decided to erect his apparatus and employ the interval by making it earn a little. Instead of a few days he stayed three years.

For the island was completely lacking in entertainments, and the colored population rushed the roundabout as they would have rushed nothing else, riding it twenty hours a day, men, women and children, often three to a horse. Fare-collectors had to be put on in relays.

So many were the repairs necessitated by the excessive working that before the end of the second year the roundabout had been twice completely rebuilt. Those three years gave the owner far more money than he had thought to earn in the whole of his life.

Miller's Worm Powders are sweet and palatable to children, who show no hesitancy in taking them. They will certainly bring worm troubles to an end. They are a strengthening and stimulating medicine, correcting the disorders of digestion that the worms cause and imparting a healthy tone to the system most beneficial to development.

Honor Foundation Of Rhodes Scholarships

Great Gathering Of Scholars Celebrated Twenty-Fifth Anniversary

A great gathering of scholars from the British Empire, the United States and Germany, recently assembled in the new Rhodes house to celebrate the twenty-fifth anniversary of the famous Rhodes scholarships at Oxford University.

The Prince of Wales, former Premier Stanley Baldwin and many prominent persons were present at a dinner in honor of the occasion.

Mr. Baldwin, who is one of the Rhodes trustees, made the important announcement that for the first time since Germans were excluded from the scholarships during the Great War, German scholars would again be admitted as Rhodes scholars. He said the trustees, subject to the consent of the university authorities, would establish two German scholarships annually, tenable for two years only.

Golf Professor—Now, one important thing for me to tell you is always to keep your eye on your ball. Suspicious Novice—Oh! so that's the sort of club I've joined, is it?

Distance doesn't lend enchantment to one's view of the almighty dollar.

Presence Of Mind

Telephone Operator Sounds Fire Siren When Bandit Invades Office

Although bound and gagged by a bandit who had invaded the office of the United Telephone Company at Vernal, Utah, recently, Mrs. Hazel Hackler, the night operator, succeeded in frustrating the holdup. It was about 3.30 o'clock on a Sunday morning that the bandit appeared, and as the operator reached for the switchboard to call the night marshal, he grabbed her by the throat and choked her and then bound and gagged her. Turning to the desk nearby, he picked up the cash box, but the operator succeeded in reaching with her foot the switch which sounds the fire siren, with the result that the fire alarm became frightened and made his escape.—Telephone Press Service.

WHEN a cold or exposure brings aches and pains that penetrate to your very bones, there is always quick relief in Aspirin. It will make short work of that headache or any little pain. Just as effective in the more serious suffering from neuralgia, neuritis, rheumatism or lumbago. No ache or pain is ever too deep-seated for Aspirin tablets to relieve, and they don't affect the heart. All druggists, with proven directions for various uses which many people have found of invaluable in the relief of pains and aches of many kinds.

Makes a Difference

Sinkins, who was house-hunting, and had just arrived at a station, said to a boy standing near, "My boy, I am looking for Mr. Johnson's new block of semi-detached houses. How far are they from here?" "About twenty minutes' walk," said the boy. "Twenty minutes!" exclaimed Sinkins. "Nonsense! The advertisement said five." "Well," replied the boy, "you can believe me or the advertisement, whichever you like. But I ain't tryin' to sell a house."

Misner's Liniment For Rheumatism

Recommended That Government Take Over Control Of Radio Broadcasting in Canada

Should the Dominion government take over the control and ownership of radio broadcasting in this country? What part should the provincial governments play in it? To what extent should advertising be allowed in broadcasting programmes? Would the listener be willing to pay \$2.00 a year license instead of \$1.00? Should attacks on religious and on religious leaders over the radio be prevented by law? These were some of the questions brought to the fore in the final public hearing of the royal commission on radio broadcasting held in Ottawa. Sir John Aird presided and the other members of the commission, C. A. Bowman and Dr. R. Frigon were present.

In an opening statement the chairman outlined the investigations the commission had conducted in Great Britain, France and Germany. It had held sessions in 24 cities across Canada and received the co-operation of the governments of the various provinces. Everywhere the commission had been received with greatest cordiality.

Following the meeting, at which representations were submitted by the All-Canadian Congress of Labor and the Canadian Legion of the British Empire Service League, the commission will at once begin the preparation of its report. It will probably be available about the end of the month.

The All-Canadian Congress of Labor came out flatly for the government taking over the broadcasting stations, elimination of advertising from the programmes and making the listeners pay the upkeep by license. The brief presented by W. T. Burford, made the following recommendations:

That the present commission be continued or a similar organization be established vested with complete administrative control of broadcasting. The radio telegraph branch of the department of marine be expanded into a department of communications, having control of all electrical communication services (land telegraph, telephone, radio-telegraph, and radio-telephone), in Canada. All broadcasting stations be owned, controlled and operated by the Dominion government through the department of communications and the radio commission. The department of communications be authorized by legislation to make use of all patent apparatus at an arbitrated valuation for the national purpose of broadcasting.

An advisory council, widely representative of purely Canadian interests, be appointed to assist the Dominion in the collection of educational and other broadcast material and to ensure freedom of speech on questions of public interest.

The Canadian Legion wanted a broadcasting organization that would develop imperial patriotism and Canadian culture. J. A. MacIsaac said, in presenting the brief for that organization. Private ownership of Canadian broadcasting stations had demonstrated that they could not compete with the United States stations. Canadians were being overwhelmed with foreign programmes charged with propaganda.

The situation could be met, the Legion thought, by federal government ownership, and operation by a directorate, in which the provinces

would have representation. The Canadian broadcasting service should lead the way in developing Canadian culture in all the arts. Every opportunity should be taken to exchange broadcasting programmes with those of the British Isles.

Arrangements Completed

Delegates To World's Poultry Congress Will Visit Various Countries

F. C. Elford, president of the World's Poultry Science Association and chairman of the transportation and membership committee of the Canadian National Congress committee, jointly with the Hon. Harry R. Lewis, chairman of the transportation and membership committee of the United States congress committee, announces that the Canadian Pacific Steamship Company has been successful in securing the contract for the World's Poultry Congress trip and tours.

The delegates to the Congress from Canada and the United States will sail from Montreal, July 12, 1930, on a Duchess steamship and after attending the World's Poultry Congress at the Crystal Palace, in London, will visit England, Scotland, Northern Ireland, the Irish Free State, Wales, Holland, Denmark, Belgium, Germany, Switzerland, and France. Nearly a thousand delegates are expected to make the trip to the Congress.

Safety On The Farm

Guards and Protective Devices Are Needed On Farm Machinery

With the present flare of safety on highways and in factory, it is a little surprising that no more attention is being given to safety on the farm. About this time of the year it is not unusual to read of farm boys and men being caught in the wheels of tractors or under the sharp edges of farming implements and being killed or injured.

In spite of the general attention that is being paid to safety devices, manufacturers seem to be giving less and less attention to guards and protective devices on machinery designed for use on the farm.

Few tractors are manufactured that provide adequate protection for the operator. The result is that farm accidents apparently are increasing. A sudden jolt against a stump or stone, and the operator is thrown under the sharp edges of disc or plow or harrow to be mangled and maimed.

It seems to be a little problem that needs the attention of the safety councils. Just as the toll of hands and arms taken by the corn shredder was reduced by safety devices, so accidents from the use of tractors may be reduced.

Flour Production

Heavier Purchases Of Wheat On Part Of Milling Industry Is Reported

The improvement in the production of flour and other cereals by the milling industry of the Dominion this year reflects itself in heavier purchases on the part of the industry of wheat and coarse grains, says "Financial Service." To the end of April, being the first nine months of the current grain year, the producers had absorbed a total of 72,521,270 bushels of wheat or nearly 6,000,000 bushels more than a year ago. Grinding of oats involved 8,836,173 bushels, or about the same volume as last year.

Canada As Gold Producer

The value of gold production in Canada in 1928 was \$39,000,000, placing Canada third among the countries of the world in gold production. Ontario came first of the provinces with a production value of \$32,000,000, followed by British Columbia, Quebec, the Yukon, Manitoba, Alberta and Nova Scotia.

Not a New Idea

The camera has been used by the Topographical Survey, Department of the Interior, as a means of gathering topographical data in the field for mapping purposes, for the past forty years.

Getting the Railway's Goat

Every year there is a contest between the two big railway systems of Canada for what is called the "Railway Goat," the trophy awarded to the winner in the softball teams made up by the Canadian Pacific and Canadian National Railways. This year C.P.R. took it with a score of 18-17, figures which indicate how keenly the contest was fought out. The trophy is now dubbed—for at least a year—the C.N.R. goat and the animal will repose at headquarters of the C.P.R. until it is either lost or retained a the annual fight next year.

Rapid Development of Aeroplane Travel Is One of the Greatest Marvels of the Present Age

Government Farm Loan Board

Farmers Taking Advantage Of Farm Loan Facilities Become Shareholders On The Board

Five of the provinces of Canada, namely Alberta, British Columbia, Quebec, Nova Scotia, and New Brunswick, have so far taken advantage of the Canadian Farm Loan Board, a Dominion Government organization formed to extend long term mortgage credit to Canadian farmers.

The farmer taking advantage of the new farm loan facilities in Canada must subscribe to the capital stock of the Canadian Farm Loan Board to the extent of five per cent of the amount borrowed by him; the provinces in which the Farm Loan Act comes into force will subscribe to the extent of five per cent of the total of loans in the province, while the Federal Government will also subscribe five per cent. Capital requirements of the Canadian Farm Loan Board, in addition to share capital, are provided for in authority given by the Dominion Government to issue bonds to an amount not exceeding twenty times the paid up capital stock subscribed by borrowers. Loans are to be made on first mortgages on farm lands.

A feature of the scheme is that each borrower becomes a shareholder in the board in company with the Dominion and Provincial Governments and will receive his share of profits of the operations. Loans are made only to settlers furnishing ample security.

Provincial boards have been appointed in these provinces with offices in the respective capital cities. All applications for loans in each province are first dealt with by the local boards following the inspection by the Canadian Farm Loan Board valuers of farm lands offered as security.

Interest of the farmers in the operation of the board is shown by the fact that in answer to inquiries there were recently sent out 1,200 application forms for loans in British Columbia and a similar number in Alberta, the two provinces that were the first to take advantage of the scheme. Proportionate interest is being shown in the other provinces.

The man of the hour is the one who was never heard of before today, and who will be forgotten tomorrow.

The time is approaching when Tennyson's "Vision" of the heavens filled with commerce, "pilots of the purple twilight dropping down with costly bales," will be a reality. The United States Army sends 208 planes into the air for manoeuvres. Mail air services cover the country. Air-rail lines to avoid flying by night are becoming a regular accommodation. The West Indies from Cuba to Trinidad are linked by airplanes. Shortly the system will be extended through South America to Buenos Aires.

There is a growing demand for planes of all sizes and speeds. Motoring in the air will be the vogue when the safe machine sought by the Guggenheim Foundation has been designed. President Seth Low, of Roosevelt Field, says that 2,000 persons were taken up in the first two weeks of June, 95 per cent of them enjoying their first ride. Five of its pilots have flown planes 1,500,000 miles "without accident of any kind." He declares that a passenger in an inspected machine driven by a licensed pilot is probably safer than he would be in a city taxicab. Fear of the modern airplane is a state of mind. The accident rate for reputable air services is now too low to furnish an argument against the security of flying.

The world air tour of the De Sibours, husband and wife, confounds the doubter. Leaving London, last September, in a small De Havilland Moth biplane, a veritable "diver" of the air, they flew across Europe, over North Africa to Asia Minor, and thence through Persia, India, Burma, and Siam to Indo-China. "We have done practically all our travelling in the last three years," says Vicomte de Sibour, "by plane, except for long journeys over water." Coming to the Pacific coast by steamship, they flew across the United States to New York. The cost was less than that of travel by steamship, railway and automobile. To promote aviation they should publish an account of their adventure.

To realize the importance of aviation consider the news of one day, the twenty-fifth of June. Colonel Charles A. and Mrs. Lindbergh set off from Roosevelt Field on a transcontinental tour to inspect the terminals and landing fields of a transport company. Captain Kingsford-Smith went up at Sydney, Australia, with three companions to fly to England. Peruvian army fliers who left New York, May 21, arrived at Lima, A. Canadian Deputy Minister of Lands and Forests started from Toronto to fly 2,200 miles to take over Indian lands acquired by the Dominion Government. Johnson and Haugland spent their third day in the air in an attempt to break the endurance record. Captain R. G. Hoyt, U.S.A., was preparing to fly from Mitchell Field to San Francisco and back in thirty-six hours.—New York Times.

The Latest Luxury

A bathroom mounted on a motor chassis has just been completed by a British motor firm for the Nawab of Bhopal. The equipment comprises a full-size bath, dressing table, bed and chest of drawers, the water for the bath being heated by the exhaust from the engine of the car.

The area of the oceans of the globe is 139,295,000 square miles.

"Sir, I assure you that I make the proposal entirely out of love for your daughter. Any other thought is far from me."

"Yes—even the thought of maintaining yourself!"—Nagels Lustige Welt, Berlin.

"You come home at 4 o'clock in the morning."

"Now, Mary, you know the clock is over ten minutes fast."—Hummel, Hamburg.

How School Teacher Gained 18 Pounds and New Energy

"I am a public school instructor," writes Mr. Linus L. Clark, "and from my study I was convinced that from food Yeast was exactly what I needed to put me in shape. I took only two bottles and gained 18 lbs. More than that, Ironized Yeast brought more energy, greater endurance and an improved complexion."

You can believe letters like this. Thousands who were doubtful at first write they gained 5 to 20 pounds often in 3 weeks. "Skinny" limbs changed to graceful roundness. Skin cleared. Tired feeling vanished.

Only when Yeast is Ironized is more effective—for Iron is needed to bring out the weight-building and strengthening values of Yeast. Pleasant tablets in a handy bottle. Safe for everybody. Never cause gas or bloating, no harmful drugs. Go to any drugist today and get a full size treatment of Ironized Yeast. If after this generous trial you are not delighted, get your money back from drugist or manufacturer. If inconvenient to buy from drugist, send \$1.25 direct to Canadian Ironized Yeast Co., Ltd., Fort Erie, Ont. Desk 425-1Y.

WORLD HAPPENINGS BRIEFLY TOLD

Mrs. S. H. Logan, wife of the Toronto manager of the Bank of Commerce, Toronto, was instantly killed in an automobile accident near Brantford.

Expanding trade in the New Westminster area is seen in the recent shipment of a large consignment of rope from the local factory and canned milk from the Fraser Valley to the British West Indies market.

Miss Susan Lawrence, parliamentarian secretary to the British Ministry of Health, has appointed Miss Ellen Wilkinson, another Labor member of parliament, to be her parliamentary private secretary.

The next quadrennial conference of the International Council of Nurses will be held in 1933 in Paris, France and Brussels, Belgium it was decided at the Grand Council meeting in Montreal.

As a "mark of respect to His Majesty King George," Ontario's provincial highways next autumn will cease to bear that designation, and will become officially known as "the King's Highway," if projected legislation is adopted.

Cramps Diarrhoea Pains in Stomach

Mr. Roy Lighthall, Milford, Ont., writes:—"I became very ill; lost my appetite, had cramps, diarrhea, and severe pains in my stomach."

"I purchased a bottle of Dr. Fowles' Extract of Wild Strawberry and before I had taken half of it I was completely relieved, and have had no symptoms of the trouble since."

"I cannot praise the Extract too highly, and will never be without a bottle of it in the house."

"It is pleasant to take and acts very quickly."

"My brother had the same experience with it as I had."

"Dr. Fowles' has been on the market for the past 54 years; you don't experiment when you buy it. Price, 50 cents a bottle at all dealers; put up only by Dr. F. Milburn Co., Ltd., Toronto, Ont."

Headache

Bathe the head with Minard's in water. Also heat and inhale Minard's.

W. N. U. 1794

South Africa's Problem

White Man Incapable Of Skilled Work Is Classed As Kaffir

By the Colour Bar Act, it is an offence for a native to undertake skilled work. Unskilled jobs are, therefore, regarded as "Kaffirs' work," and no white man would dream of undertaking them. The result is that, if the European is incapable of skilled work, he cannot enter the ranks and becomes a "poor white," a social parasite, a loafer hanging on to the skirts of white society, a decadent slowly sinking lower into the morass of degradation, a feeble, hopeless figure, a social outcast in every twelve in South Africa is in this category today! It is the greatest social problem with which the country has to deal. This is the price they are paying for the introduction of a very two centuries ago, and for the maintenance ever since of the slave-owners' attitude towards manual toil. So long as manual labour is regarded as degrading and as "Kaffirs' work" with which no white man must soil his hands, just so long will industrial prosperity delay its coming.

RED HOT JULY DAYS HARD ON THE BABY

July—the month of oppressive heat, red-hot days and sweltering nights; is extremely hard on little ones. Diarrhoea, dysentery, colic and cholera infantum carry off thousands of precious little lives every summer. The mother must be constantly on her guard to prevent these troubles, or, if they come on suddenly, to fight them. No other medicine is of such aid to mothers during the hot summer as is Baby's Own Tablets. They regulate the bowels and stomach, and an occasional dose given to the well child will prevent summer complaint, or if the trouble does come on suddenly, will banish it. The Tablets are sold by medicine dealers or by mail at 25c. a box from The Williams' Medicine Co., Brockville, Ont.

Rubber From Weeds

Edison Experimented With Many Varieties Before He Was Successful

Mr. Thomas A. Edison has discovered a substitute for rubber. He found that there could be no substitute for the rubber tree as the source of rubber, but he has discovered a weed—after experimenting with 15,000 varieties—which will produce a latex fluid from which a workable substitute for rubber can be extracted. The weed can be moved like wheat, it was asserted by Mr. Edison's representative, and does not require planting anew every year, being a perennial. Mr. Edison has of late been engaged in experiments with the object of making a machine which will separate the rubber substitute from other components of the fluid, but he has so far not been successful in this direction.

Your Home Medicine Chest.—Among the standard household remedies that should always be on hand in your home medicine chest, none is more important than Dr. Thomas' Electric Oil. Its manifold usefulness in relieving pain and healing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Electric Oil for relieving rheumatic and sciatic pains, treating sore throats and chests, coughs, burns, scalds, cuts, bruises and sprains.

The Island of Puka, in the South Sea, is 800 miles from its nearest neighbor. Its inhabitants at present consist of 300 natives and one white man.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple and strong remedy—Mother's Graves' Worm Exterminator.

Ten Thousand Words On Postcard.—A German artist has written on an ordinary postcard a 10,000-word story of Colonel Lindbergh's flight across the Atlantic. It took three months to complete and was written with a hard pencil and without the use of a magnifying glass.

At Queen Victoria's birth, there were five persons between her and the throne.

Evidences of the existence of the harp in prehistoric times have been found.

Keep Minard's Liniment in the Medicine chest.

The Standard of Quality Since 1853

Appreciation Of Spain

Officers Of British Aircraft Carrier "Eagle" Decorated By Spanish Premier

Premier De Rivera, of Spain, summoned the officers of British aircraft carrier "Eagle," to be decorated with the Spanish Cross of Merit for saving Commander Ramon Franco and his three companions from the mid-Atlantic. The ceremony took place at Madrid.

It was Spain's crowning gesture of appreciation for the great service the Britishers had done to the Spanish government in rescuing the fliers. As soon as the full list of the members of the crew the "Eagle" is received from the British admiralty the sailors and marines of the rescuing ship also will be awarded medals.

The "Eagle" itself will be decorated with the aerial medal. This ceremony will take place either at Algiers or Gibraltar, as soon as the British admiralty finds it convenient to send the ship there for that purpose.

The Family Physician.—The good doctor is always worth his fee. But it is not always possible to get a doctor just when you want him. In such cases, common sense suggests the use of reliable home remedies, such as Dr. Thomas' Electric Oil, which is wonderfully effective in easing inflammatory pains and healing cuts, scratches, bruises and sprains. The presence of this remedy in the family medicine chest saves many a fee.

One of the impressive things of modern life is to stand and watch a single policeman dam the flow of traffic. And hear the pedestrian

SUNDAY SCHOOL LESSON

JULY 21

EZEKIEL'S VISION OF HOPE

Golden Text: "Of the increase of his sovereignty and of peace there shall be no end."—Isaiah 9:7.
Lesson: Ezekiel 47:1-12.
Devotional Reading: Psalm 100.

Explanations and Comments

The Source Of The River, verses 1, 2.—The prophet Ezekiel is describing his great vision. He has finished his view of the temple, its courts and its worship as they are to be in the new Jerusalem, and now his supernatural guide brings him once again to the door of the temple. There he beholds a miracle. From underneath the threshold waters issue.

The river starts from the sanctuary: from every church today infumous should stream that quicken and bless the life of all around. The river sought the most direct course to the desert and the Dead Sea; the Church should carry the water of life to the waste places, the dreary, barren, thirsty places of the world. Is the life of our church limited to its own outer and inner courts?

The Deepening Of The Stream, verses 3-5.—He follows the river with his guide, who measures with a line the distance they travel. A quarter of a mile (one thousand cubits) away from the temple, Ezekiel finds the water up to his ankles. (A cubit varied in length from eighteen to twenty-one inches.) The waters rapidly deepen as they continue their way, and when a half mile is measured the waters reach his knees; three-quarters of a mile and it is up to his waist; and at the end of a mile the waters have become a river too deep for them to ford, deep enough to swim in.

Ezekiel's pictures may seem to us, in part, mechanical and fantastic, if not grotesque; but it is not difficult for a sympathetic imagination to appreciate the thing Ezekiel

would be at, or to share his hopeful and eager wonder at the possibilities of the future time when the Church has secured her true place in the land and in the hearts of the people.

Nothing As Good For Asthma. Asthma remedies come and go but every year the sales of the original Dr. J. D. Kellogg's Asthma Remedy grow greater and greater. No further evidence could be asked of its reliability. It relieves. It is always of the same unvarying quality which the sufferer from asthma desires to know. Do not suffer another attack, but get this splendid remedy today.

Cannot Be Exported

Many of the finest varieties of bananas cannot be exported on account of their tender skin, among them being the "lady finger" banana of the Canary Islands, which is only about three inches long.

For Baby's Bath

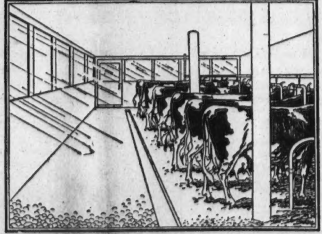

More than that of any other member of the family, baby's tender, delicate skin needs the greatest care and attention. The soft soothing oils in Baby's Own Soap make it especially suitable for babies, and its clinging fragrance reminds one of the roses of France which help to inspire it.

"It best for you and Baby too" 17-22

WINDOLITE The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized glass raising, gives a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs., while a square yard of glass of ordinary thickness, weighs about 135 to 150 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, Exch., Toronto.

GRAIN GROWERS WITHDRAW FROM CO-OP. UNION

Winnipeg.—One of the largest produce marketing corporations in western Canada has indicated definitely that it would withdraw its affiliation from the Co-operative Union of Canada, at the congress of that body here, when Hon. T. A. Crerar, president of the United Grain Growers, Limited, Winnipeg, replied to charges leveled against the United Grain Growers by delegates from Saskatchewan, that the company "no longer retained its co-operative spirit among the farmers of the western provinces."

"A resolution presented by H. W. Ketcheson, Davidson, Sask., chairman of the Resolutions Committee, asking the resignation of the United Grain Growers, Limited, received the support of several delegates before Hon. Mr. Crerar announced the intention of serving notice of his company's withdrawal from the Co-operative Union."

In speaking of the statement that the United Grain Growers had forsaken the co-operative method of doing business, Mr. Crerar strongly denied that the company had ever served from its original plan to work for the benefit of the western farmer.

"Our business details have not changed in any detail since 1906 when we started business," Mr. Crerar stated. "The company has always felt a sincere co-operative spirit, still does and always will."

The annual congress was denied the privilege of voting on the resolution to ask for the resignation of the United Grain Growers when Mr. Crerar made his declaration that the firm would withdraw. J. G. Mohl, Edenwold, Sask., while admitting that the Grain Growers had done a great pioneer work in the co-operative methods throughout Western Canada, was of the opinion that no longer could they term themselves a co-operative concern.

In some districts of Saskatchewan, he said, the United Grain Growers is in direct opposition to local co-operative societies.

The only point on which the congress was concerned, said Mr. Ketcheson, in supporting his resolution, was whether the United Grain Growers could be rated a co-operative organization at present. He thought not.

"The people of the west who trade with the U.G.G. are not collecting profits, which, by their trade, they make for the company," he declared. "Huge money reserves have been built up by this mass of money in the hands of the shareholders—and the shareholders only, not the farmers," he added.

Japanese Aviator Killed

Started From Los Angeles July Third, On Trip Around World
Salt Lake City, Utah.—The body of Masashi Goto, 22-year-old Japanese aviator, of Los Angeles, and the wreckage of his aeroplane in which he had started on a projected trip around the world, was found in a canyon southeast of here. Backed by funds raised by Japanese newspapers of the Pacific Coast, Goto had set out July 3, from Los Angeles and flew down to Salt Lake City. The next morning he left the airport here in his small plane and was never seen alive again.

Railway Conductors Given Privilege
Ottawa.—The right of the Order of Railway Conductors to contract separately with the Canadian Pacific Railway, western lines, for an increase in wage rate, apart from the Brotherhood of Railway Trainmen, was upheld by the attention of the Board of Conciliation empowered by Hon. Peter Hoeman, Minister of Labor, to enquire into this matter.

Chinese Arrest Soviets

Tokyo.—An Agency dispatch from Harbin said that Chinese authorities arrested 174 Soviet officials and employees of the Chinese Eastern Railway. The happening was described as a coup aimed at ousting Russia from joint control of the line.

W. N. U. 1794

American Boat Forfeited

Vessel Will Be Put Up For Sale By Order Of Admiralty Court

Victoria.—The American salmon trolling boat number 557-G.A., was condemned, and declared forfeited to His Majesty by Hon. Mr. Justice Archer Martin, in the Admiralty Court here. The vessel will be put up for sale by Herbert Goggin, Admiralty Court Marshal.

The number 557-G.A. was seized May 18, off Pacheña Point on the west coast of Vancouver Island, by the Canadian Government Fisheries Protection cruiser, Givensby, and was charged with illegal fishing in British Columbian waters.

H. A. MacLean, K.C., counsel for the owners of the tug 557-G.A., who withdrew from the court proceedings against the boat made a re-appearance in Admiralty Court and entered a consent on behalf of the owners of the vessel to an order for its condemnation.

In the action of the Crown versus the Jeannette, Captain Olaf Hansen, master of the American vessel which was seized by the Canadian Government Fisheries Protection cruiser, Malaspina, on May 6, last, in Goose Harbor, about 100 miles north of Alert Bay, told the court that engine trouble experienced, May 4, had caused him to seek anchorage in Goose Harbor the following day to make temporary repairs to the ship's engine.

Officials Find Drugs In Envoys' Boxes

French Customs Examiner Discovers Cases Contained Heroin and Cocaine

Paris.—French customs officers believe they have uncovered a flagrant violation of the diplomatic immunity to cloak wholesale importation of heroin and cocaine into France. An investigation has been ordered.

The customs examiner's curiosity was aroused by the appearance of four packing-cases addressed to Sirdar Ali Chaudhri Niaz Khan, the Afghan minister in Paris, who has just been appointed ambassador to Moscow.

As the cases were being placed on a wagon officials noticed a white powder escaping through a crack. They took a sample, which proved to be heroin. The cases were all opened and found to contain heroin and cocaine to the value of \$33,280.

To Form Wheat Pool

Australian Growers Ready To Take Ballot On Question

Sydney, Australia.—Following a conference with representatives of wheat growers on the position of the Australian wheat industry, the cabinet accepted the recommendations for a ballot among wheat growers on the question of establishing an Australian wheat pool. The conference was in favor of a minimum price of three shillings and six pence a bushel (approximately 84 cents), for the first advance from the pool to growers.

It is understood banks are willing to guarantee a certain amount if the pool is formed. The government's share in responsibility for such a guarantee is to be discussed later.

Ottawa Not Informed

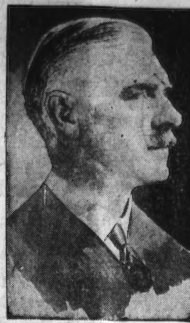

No Communication Yet Received Regarding Imperial Economic Conference

Ottawa, Ont.—The Dominion government has not yet received a communication from the government of Great Britain asking whether or not it will be possible to hold an Imperial economic conference. This was stated at the Department of External Affairs when the attention of the Department was drawn to the statement of Right Hon. Philip Snowden, in the British Parliament, that such communications were being sent to the various British Dominions.

Will Exclude Trotsky

London, England.—The Daily Express states that the British Cabinet has reached a formal decision to refuse Leon Trotsky entrance to Britain. The exiled Soviet chief made application for a visa soon after the Labor victory was reported at the polls.

SPEAKER OF BRITISH HOUSE OF COMMONS

Captain Rt. Hon. A. E. Fitzroy, who was unanimously re-elected Speaker of the British House of Commons.

Introduced To Prince Under Fictitious Title

Woman Gate Crasher At Mansion House Banquet Had To Leave

London, England.—It was revealed that a woman gate crasher was presented to the Prince of Wales at a banquet given at the Mansion House in honor of Sir Abe and Lady Bailey.

A pretty young woman of about 28 years arrived at the Mansion House and had herself announced under a fictitious English title. She was introduced to the Prince, who shook hands with her and also the guests of honor of the evening.

All might have gone well but the fact that only four women had been officially listed, proved her undoing. She was requested to leave.

The identity of the uninvited guest is unknown.

Cowboy Loses Right Eye

But Finished Ride For Prize At Calgary Stampede

Calgary.—An outstanding feat of human endurance was performed at the stampede here when Leo Farris, of De Winton, Alta., known far and wide as the "Canada Kid," continued to ride a Brahman steer after his right eye had been pulled out by the beast's horns. Farris finished his ride to take the prize money for the day for this event although he suffered his injury early in the test. He was taken to hospital after the event and the remains of his eye were removed. His condition is serious but he is expected to make recovery. Last year the Canada Kid was the champion all-round cowboy.

Talkies On Atlantic Liners

London, England.—Apparatus for talking pictures is being installed on the Trans-Atlantic liner "Majestic," it was announced here. The "Leviathan" will follow suit in the near future, and all the other principal liners will be similarly equipped, it was learned.

TWO GOLF LEADERS

Western Canada is very much in the golfing limelight this year with both the Canadian Amateur and Western Canada Amateur championships being played over the Jasper Park Lodge course, Jasper National Park, Alberta, August 19-24, inclusive. Much organization has been necessary to make sure of the success of these tournaments, and some have worked harder than C. H. Harvey, of Winnipeg, president of the Royal Canadian Golf Association (left), and C. W. Jackson, of Winnipeg, president of the Western Canada Golf Association.

Concessions For Tourists

Broadening Conditions Under Which Visitors To Canada May Bring In Motor Cars

Ottawa.—A memorandum is going forward to the collection of the national revenue broadening the conditions under which visitors to Canada may bring in their motor cars. The memorandum has been issued by Robert Bredner, commissioner of customs.

In the past a tourist from the United States could bring his car under a tourists permit and go where he wished. However, if visitors desired to combine business with pleasure in this country they were prevented from using their cars.

The new memorandum will give these persons the same privileges as tourists with respect to the free use of their cars while in this country. It is especially provided, however, that cars cannot be employed in such commercial uses as carrying passengers, or in any other commercial pursuits in competition with Canadians.

Would Abolish Bank Guard

Labor Member Brings Up Question In British House

London, Eng.—A suggestion has been made in the House of Commons. For the past 150 years one of the sights of London has been the nightly march along the Thames Embankment of what is known as the "bank guard," one officer and about 50 men from one of the Guards regiments, which goes to the Bank of England and says all night as a guard to the bank.

When Oliver Baldwin, Laborite, son of the former premier, asked how much the bank paid for this service, Tom Shaw, secretary for war, replied that the bank paid nothing, as under the statute it acts as banker for the government and has custody of the gold reserves. In the discussion which followed, "Ernest Thurtle, Laborite, suggested the guard be abolished.

There the matter rests, Secretary Shaw having promised to take the matter under advisement.

Ask For Drastic Punishment

Officials Demand Trial Of Vice-Consulate's Wife Under Chinese Law

San Francisco.—A demand that Mrs. Ying Kao, wife of the Chinese vice-consul in San Francisco, be tried under Chinese law in China and put to death if convicted for her alleged part in bringing a large consignment of opium to this country, was made here by the executive committee of the Kuomintang of America.

It was explained that the Nationalist government had enacted stringent laws against trafficking in opium in China and that such laws provided the same penalty in case of their violation by persons connected with the government.

Yink Kao, upon the advice of friends, terminated his connection with the consulate. Neither Mrs. Kao nor her husband have been placed under arrest.

HIGH GRADE WHEAT IS STILL BOAST OF CANADA

Fort William, Ont.—Wheat was and still is the boast of Canada and never was there a time when it had been chased off the high seas, declared Dean Rutherford, member of the Saskatchewan Royal Grain Commission, at a session of the commission. Dean Rutherford was replying to an editorial which appeared in a local newspaper and which criticized the quality of Canadian wheat.

Canadian wheat has a quality of its own, he declared.

"Even our number five wheat was quoted at equal and a little better than other export wheat from other countries," he spoke after.

While Britain will buy American wheat when it is cheaper, Britain always wanted the best wheat. Dean Rutherford continued. A report issued recently by the United States government quoted the price of the best exportable Argentine wheat at 16 cents less than Canadian No. 3 Northern, and the best United States export wheat at 14 cents under the same grade.

The commissioner said that lack of rain in the fall of 1926 and 1927 had damaged the crop. The same condition prevailed this year. The farmer cannot be blamed for this, he stated.

"Our wheat holds its place in the markets of the world with any wheat in any country of the world," Dean Rutherford concluded.

A representative of the local newspaper whose editorial was under discussion, declared that it could not be denied that Manitoba No. 1 hard wheat on which the reputation of western Canadian wheat was based had vanished from the market. In no place in the west was No. 1 hard raised today, he declared. He drew attention to the report of the seed branch on the seed sown by the western farmer.

This report showed that in a large number of cases seed taken from the hopper of the drills showed that the farmer was actually sowing fifty thousand weed seeds per acre. The condition of western fields in some sections were such that it was impossible to say whether a stooked field contained stocks of grain or of weeds. He claimed that these conditions were under the control of the farmer.

For these reasons, he believed there was justification for most of the statements in the editorial in question. It was possible that No. 3 wheat was all that was claimed but the farmer no longer has even No. 3 to sell.

The commission brought its session at the head of the lakes to a close with today's meeting. The commissioners departed by lake steamer to continue their investigations at the lumber lake ports and the Atlantic seaboard ports.

Pensions In Russia

Workmen To Benefit Under Soviet Old Age Pension System

Moscow.—Workmen who have reached the age of 60 and worked at least 25 years are entitled to receive half their present wages until death, under the provision of an old age pension system, enacted by the Soviet Government. In dangerous occupations, the age limit is 50 years. Women of 55 who have worked 20 years are granted the same benefits.

Recovery From Operation

Ottawa.—Hon. C. A. Dunning, Minister of Railways and Canals, was removed from the Civic Hospital to his residence on Range Road. Mr. Dunning was operated on six weeks ago for appendicitis and although his progress has been satisfactory it will be some considerable time before he is entirely recovered.

Unemployed In Britain

London, England.—The official registration of unemployed numbered 1,346,000 in June 1. It was made known recently. This number is 24,983 above the mark of the previous week and 75,780 below the figure for the same period last year.

Here and There

541

"It is a good thing we left the tent flap open or he would have ruined the tapes into the harness," said Belmore Brown, well-known artist who has been painting and sketching in the Rockies for a number of years. He was forced to return to Banff when a bear ransacked his provisions. Brown took the cases out of the tent so he could open and devour them at his convenience. It was possibly the same bear that tore the tent to bits a previous year when Brown thought he could safeguard his supplies by closing his tepee.

Dr. Wang Chung Hui, member of the judicial department of the Government of China, who arrived at Vancouver recently on the Empress of France, en route for the court of International Justice at The Hague, of which he is a deputy judge, said when interviewed that China was now completely unified and the Nationalist government firmly in the saddle. The main problem now before the government was that of transportation, he added.

Canada's national wealth is increasing at a rate of nine hundred million dollars a year, according to a computation recently made by the Dominion Bureau of Statistics. Ontario leads in total wealth with \$9,560,775,000. Other provinces follow in this order: Quebec, Saskatchewan, British Columbia, Alberta, Manitoba, Nova Scotia, New Brunswick and Prince Edward Island. While eastern provinces lead in absolute wealth, the western provinces rank highest in wealth per capita.

Canada, it was stated at a recent convention of the International Circulation Managers at Ottawa, has the largest foreign trade per capita in the world, the two greatest railways and the cheapest electricity. Canada ranks third in the production of the world's gold, third in silver, first in nickel and first in asbestos. More paper is handled in Canada than anywhere else.

A fast 20-foot quarter mile race track built up and surfaced like a good tennis court will be ready for the 40th annual Dominion track and field championships to be held at Banff next Labor Day. The infield has been specially prepared and resown and the grandstands enlarged. This will be the first time the Dominion championships have been held in Alberta since 1922.

Situated in the heart of the Rockies and of a huge natural game reserve and refuge, the animals at Banff are naturally very tame. Recently a bull elk who had been following with keen interest a game of golf played by Les Crosby, charter member of the Banff Golf Club, picked up the ball after it had been played onto the 19th green, chewed it and finally dropped it in a bunker. Mr. Crosby is willing to take his affidavit that this occurred as described.

Opening of the Pines Hotel at Digby, Nova Scotia, late in June, marks the interest taken by the Canadian Pacific Railway in the Maritime Provinces tourist traffic. The hotel is handsomely appointed with special swimming and golf facilities and is a centre from which many interesting trips through the Eryn, geline country and all over Nova Scotia can be made.

The Singing Fool

By HUBERT DAILEY
Copyright 1929, Warner Bros. Pictures, Inc.

SYNOPSIS

Marcus, the famous Broadway producer, heads a party of four that visits Blackie Joe's night club in downtown New York. Al Stone, Blackie's chief comedian and singing waiter, takes the order for beer. Grace, the cigarette girl, is in love with Al, but he doesn't know it. As he returns with the beer he encounters Molly, the ballad singer, whom he loves ardently. He begs her to sing a song he has just written. Molly is disdainful toward him. Blackie Joe tells Molly that the great Marcus is outside and she makes him promise to introduce her. When Al rushes back to her dressing room she refuses even to read his song. He sees it on the floor under her feet!

CHAPTER IV

Al could scarcely believe his eyes—the song, the heart-throb ballad he had poured forth from the depths of his soul, lying on the floor unnoticed, under Molly's sharp and careless heel!

He raised his gaze as he felt Molly about to sweep by him. Scarcely knowing what he was doing, he seized the angry girl in his arms, pulling her close to him, staring beseechingly into her eyes. She tried to pull away, but his grip of steel held her.

"Molly!" he pleaded. "Didn't you even read it?"
Again Molly tried to escape, succeeding this time. If she had been angry before she was blazing now. "How dare you try to stop me? I told you I had important business out in front tonight! You better—some idiot—your's almost ruined my make-up!"

She returned to her dressing table and began dusting her arms and shoulders with powder. On the lapels and sleeves of Al's coat were the heavy white marks of the powder. But he did not notice them, nor did he hear her words. Slowly she stooped over, like a man in a dream, picking up his song. He saw the sharp print of Molly's steel-tipped heel across the music. It had almost cut through the paper, and he stared at it for a long moment. It was as if that little heel had cut into his heart.

Again she headed for the door, reaching the corridor. Then she realized that Al was following her and she turned about, determined to settle him once and for all. Her blue eyes were glittering and her voice had a rasping, harsh quality.

"Al Stone, get this through your

head. I won't have anything to do with you. I'm not going to marry you or any other waiter!"

With vitriolic sarcasm she emphasized the word "waiter." Then with a flit of her skirts she disappeared down the corridor. A moment later she was in the main room and had forgotten Al entirely, for she saw the figure of Marcus, czar of the Broadway revues, with his party at the ringdine table across the dance floor.

At once her manner and expression changed. The calculating gleam in her eyes was masked by a soft, bright, friendly look; her body, which had been rigid with anger a moment before, relaxed so that she moved toward the Marcus table with an easy, graceful walk. She was a very pretty girl at that moment. No one would have believed her features had been distorted by rage just a moment before; no one would have thought that she could treat a man as cruelly as she had just treated Al. But Molly was burning with ambition and she saw in Al only a lover-lane man who would be a hindrance to her in her climb toward fame. So she treated him ruthlessly, not because she disliked him, but because he got in her way. Her feeling toward him was neither love nor hate, it was just indifference. If he had been rich, powerful or socially distinguished, Molly would have played up to him like a soft and affectionate kitten. But—he wasn't.

Meanwhile, there sat Marcus, fifty feet away, chatting amiably with his companions and occasionally sending a bored glance toward the cabaret show that was in progress on the rectangular floor a few feet from his table. Molly studied his face and began to plan her course of action.

"What shall I do to make him like me," she whispered softly to herself, "baby stuff or a more sophisticated line? He looks so sophisticated himself, so maybe the baby stuff will go better. Remember, Molly darling, that man can make you famous on Broadway if he likes you. But where—?"

She cut short her unspoken soliloquy to look about for Blackie Joe, who had promised to introduce her to Marcus. Finally, she located him talking to some customers. She moved over to his side.

"Blackie,"
He looked up.
"You know—" she said significantly. "I'd like to meet him before I do my songs. Then he'll be more interested in watching my stuff."

"Wise little girl," said Blackie, patting her on the arm. "Yes, I know. I'll give you a knockdown right now."

He took her by the hand and led

her toward the Marcus table. She saw Marcus's eyes rise to meet hers, then Marcus himself was standing in response to Blackie's casual introduction. As if from a distance she heard Blackie's voice: "Mr. Marcus, this is one of my most talented performers. Molly, may I present the most celebrated producer and picker of pretty girls on Broadway?"

Marcus smiled and courteously made way for Molly to sit down beside him. He knew that what the girl wanted and he was willing to be polite about it for Blackie's sake. But to say that he was interested in Molly would be rank exaggeration. He had too many superbly beautiful girls in his revues to be impressed by one who was merely pretty.

Nevertheless, he addressed a few well-bred remarks to Blackie's singer and Molly, priding herself on her conversational gifts, came back in the most animated manner. But in a moment Marcus turned from her as the young actress on the other side of him engaged his attention.

Molly studied this girl closely, her gleaming jewels, her lovely little baby-doll face.

"There is a girl," thought Molly, "that Marcus is making famous. I say she looks like money, yet she's no prettier than I am. This man can put me on the map, too."

But at the moment it certainly appeared as if Marcus had not the slightest intention of helping Molly. In fact it seemed as if he had forgotten her presence entirely.

Meanwhile, the singing waiter, whose love she had flouted, paced the corridor leading to Molly's dressing room. For a moment he stood and stared at the crumpled song-sheet he held in his hand, his face the picture of dejection. Outside he heard the symphonic rhythm from the jazz band and the staccato beats of a pair of tap dancers in action, but the only sound that echoed in Al's ears, came from Molly's parting words. They seemed to reverberate through his whole body, like the drip to his hopes and love. At last he realized completely that his chance of winning Molly was an utterly lost cause.

Dull despair crept over him and the sheet of music slipped from his unresisting hands. Mechanically, and without knowing what he was doing, he stooped and picked it up. Then the title of the song across the top caught his eye—"Always."

"Always"—what a fool he was to write a song like that, fondly believing it would touch her heart and that she would share his enthusiasm for it! Swiftly he crumpled the song-sheet in his fist, as if to wipe the memory of its creation.

In the distance, from a corner of the main room, Grace, the cigarette girl, was watching him sympathetically and intently. She had seen him talking to Molly. Vaguely she sensed the cause of his despair.

But Grace, loving him generously, thought not of herself nor of Molly, but only of some way to help Al in this time of trouble. Al, the gay, wise-cracking, singing waiter, had lost his pep and energy. Al, of the kindly, handsome mouth, of the deep, warm, glowing brown eyes; Al, who had been her best friend at Blackie Joe's—was suffering. She knew he didn't love her and considered her only a sweet child, but that didn't matter.

Giving a quick glance around, Grace stepped into the corridor and approached him on tiptoe. Al felt a light touch on his sleeve and heard a soft, sympathetic voice at his shoulder. He gave a start, thinking, in a mad burst of hope that it might be Molly. Then he looked down into Grace's eyes.

"What's the matter, Al?"
(To Be Continued.)

Corns cannot exist when Hollaway's Corn Remover is applied to them, because it goes to the root and kills the growth.

Superstitions About the Moon
In the Middle East exposure to the rays of the moon is said to cause nightmare as well as headaches, and in the Far East a morning "thick head" is added to these symptoms. In Burma there is a belief that when the insane suffer from mental storms, these correspond to the phases of the moon.

Little Helps For This Week

"I will teach you the good and the right way.—1 Samuel xii. 23.
Live to do good; but 'not' with thought to win.
From man return of any kindness done.

Do naught but good; for such the nobles strive
If virtue is, 'Gainst wrong to venture love,
And for thy foe devote a brother's life,
Content to wait the recompense above.
Brave for the truth, to fierce insults meek,
In mercy strong, in vengeance only weak.

—G. W. Belhune.

He began to talk very gently about different sorts of kindness, and that if I wished to be kind like a Christian, I must be kind without hoping for any reward, whether gratitude or anything else. He told me that the best followers of Jesus in all times had tried hard to do every thing, however small, for God's sake, and to put themselves away.—Julian Horatio Ewing.

New Canadian Record

Official Altitude Record Of 29,000 Feet Made By Special Pilot

Captain J. D. Parkinson, special pilot of the Curtiss-Ried Flying Services, Ltd., Montreal, established an official Canadian altitude record of 29,000 feet in a cabin monoplane. He carried a sealed barograph.

The previous Canadian record was 18,000 feet, established by Captain Leigh Caporin in a Moth plane. Captain Parkinson's flight occupied one hour and 28 minutes, of which one hour and two minutes was occupied in the climb upwards.

When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been overstimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

harmless. It has remained the standard with physicians in the 50 years since its invention.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Don't Let Foods Stale

Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper.
Your grocer, druggist or stationer has Para-Sani in the handy, sanitary knife-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

Stony Plain and District.

IT PAYS TO PAY CASH.

Gus Barth's motor party arrived from Banff on Tuesday.

Mr John Kulak, who has been teaching at Wetaskiwin, is visiting friends in this district.

Mrs O G Wudel was taken in to an Edmonton hospital on Sunday for treatment.

Mrs G Duthie, Mundare, was visiting this week with Mrs A E Michael.

Mr "Rudolf" Heichen, who is manager of a grain elevator at Leeder, Sask., is spending a week's vacation with his parents north of town.

Mrs Alt and family left on Monday for Grand Prairie, where they will rejoin Mr Alt.

Mr and Mrs Michael have returned from their motor trip to Halkirk.

Mr W Samson was a visitor at the Edmonton Ex. on Tuesday.

Marx Ticklish is attending on a business trip to Calgary. On his return to Stony, he may open a store for the exclusive sale of collar-buttons.

Meredian Lodge held its regular monthly session on Tuesday evening. Several of the members were given degrees.

The dedication of St Philip's church, the new R.C. edifice in Stony Plain, will take place on Sunday, July the 28th. His Grace Archbishop O'Leary will be present. Rev C Keenan is the pastor.

At the meeting of Inga Councilors on Friday last, Mr Geo Herbert was appointed weed inspector for Divs 1 and 6 of Inga M. D.

Stony Plain Liberals were represented at the assembly yesterday in Edmonton of the big guns of the Liberal party. Addresses were made by Hon Charles Stewart; J T Shaw, provincial Liberal leader; and Assemblyman G H Webster, of Calgary.

United Church Notes.

At Spruce Grove last Sunday morning, the Rev Ginerich, of Elmira, Ontario, was present, and took part in the service.

The subject of the sermon last Sunday was "Salvation," or "Being Saved." Despite the extremely hot weather, the congregations were fairly good at all points.

Card of Thanks.

Mrs Hyett and family wish to thank their friends for the expressions of sympathy and acts of kindness shown, on the occasion of their recent sad bereavement.

Accident on Baseline.

On Sunday evening another accident happened on the Baseline about four miles west of Stony Plain. While Mr A Spence of Edmonton was driving his coupe past a horse-drawn vehicle he ventured too near the edge of the high grade, with the result that the edge of the grade gave way, precipitating the auto down the bank. The two occupants of the car were rescued, and fortunately neither had received serious injuries. Several complaints have been lodged concerning the danger to the traveling public on these high, narrow grades.

Evangelists' Convention

The big convention of Evangelists which had been encamped at the Iver Klewin farm at Inga, came to a close last week. About 400 delegates were present, some of these coming from Oregon, Washington, California, Saskatchewan and a number of points in this province. Prayer, exhortation and songs was the order of the services, which were held twice a day. Several inspiring addresses were made by the visiting leaders. A large tent had been engaged in which to hold the meetings.

When Greek Meets Greek.

The big business at the local Court on Tuesday was the case of the alleged assault on Teacher Hassey as the latter, accompanied by Pastor Dedick, was leaving the grounds of the Greek Catholic church near Caryl, at the close of a service on a recent Sunday.

Mr John P Fuhr acted as interpreter for those Russian witnesses unable to understand English. Corp Moses had charge of the case for the prosecution, and had as witnesses for the prosecution a number of women and men who were with complainant as he was leaving the church.

After hearing the evidence of three or four witnesses, Magistrate E Williams fined each of the two defendants 50 cents and the costs of the Court.

Spruce Grove News

Spruce Grove trustees are desirous of having a male principal for this school. The services of Miss Piechbeck has been retained, and she will have charge of the primary room when school reopens.

Foreman's road outfit are making good progress on the road east to Winterburn, and grading will soon be in order. Work on the subway where the Baseline crosses the railway at Bellerbin's has been held up, pending the close of negotiations between the department of Public Works and the railway. When this subway is completed, one very dangerous level crossing will be eliminated.

Larson Bros. have made a fine job of painting the exterior of the Dan Brox residence.

For acting in a disorderly manner in a public place, on a recent visit to the Grove, Wm McLean on Saturday last was fined \$5 and \$2.85 costs or 10 days at the Fort, by a local J.P. "Bill" promised that it wouldn't happen again.

The Rev. Ginerich, a New Mennonite preacher, from Elmira, Ont., was a visitor, this week, with Mr D Brox.

The pleasant weather on Sunday afternoon brought a very large crowd to the Missionfest at the local Peace Lutheran church. Rev Osterman was assisted by several visiting clergymen, who gave addresses appropriate to the occasion. Student Ph Unterschultz was present. The refreshment booth was well patronized.

Thru an inadvertence, it was stated in our last issue that the painting and decorating of Spruce Grove Hotel was done by Larson Brothers the well known Holborn decorators and painters. This should have read Mr A Fisher.

Lost—On July 2nd, one shop awning. Kindly return to Sun Office and no questions asked.

Nine Grain Firms Merge.

With physical assets totaling \$9,250,000, 9 grain firms with head offices at Winnipeg, Vancouver, Regina, Calgary and Edmonton, have announced a merger under the name Federal Grain Limited.

The companies involved are Stewart Terminals, Consolidated Elevator Co., the Federal Grain, International Elevator, Union Grain, Northwestern Elevator, McLaughlin Elevator, Topper Grain, Brooks Elevator.

The new company will control 339 country elevators and over seven million bushels of terminal space.

Two of these companies have branches in Stony Plain—the Brooks and the Federal.

Get Your Turkey Book

Greatly increased interest in turkey raising as a profitable sideline to general farming operations is reported thruout the province. A still further expansion is anticipated from the number of inquiries received by the poultry branch of Dept of Agriculture for the recent publication: "Turkey Breeding and Management," which is a free bulletin available for distribution.

Ford

Do You Know?--

That no automobile except Ford selling for less than \$1500.00 has triplex shatterproof glass windshield as standard equipment?

That the new Ford Car has 25 ball and roller bearings in the chassis?

That when the new Ford, is travelling at 50 miles per hour, the revolutions per minute of the motor is only 2077?

That the new Ford stands out supreme in its field in mechanical design, specifications, equipment, quality, and precision workmanship?
